

# EZEKIEL FUNOM GWAMNA

Software Engineer | Data Analyst | Global Health Systems Specialist

ezekiel.gwamna@hotmail.com | +234 908 000 0236 | linkedin.com/in/ezekiel-funom-gwamna3b3060159  
No. 4 Amina Abubakar Close, Katampe Extension, Abuja, FCT

## CORE SKILLS

- Back-End Development (Flask / REST APIs)
- API Design, Documentation & Integration
- Database Modeling & Optimization
- Git, GitHub & Collaborative Workflows
- AI Tools, Prompt Engineering & Automation
- Data Analysis, KPI Tracking & Dashboards
- Agile Delivery & Stakeholder Management

## LANGUAGES

- English — Fluent
- Hausa — Fluent

## CERTIFICATIONS

- Forage (Citi) Software Dev Simulation — 2025 (ID: aeojn4g3GDLYu2DaH)
- Certified Cryptocurrency Trader — Blockchain Council (2019)
- Microsoft Office Suite (CEUs) — GCFLearnFree.org (2007–2008)

## COMMUNITY ENGAGEMENT

- Mentoring aspiring software developers in local communities
- Supporting community health initiatives with data-driven tools
- Promoting technology education and practical career pathways

## PROFILE

Innovative Software Engineer with strong expertise in back-end development and AI-powered solutions, complemented by specialized knowledge in global health systems. Adept at leveraging artificial intelligence tools and technical skills to solve complex problems and develop impactful technology solutions. Combines analytical thinking with practical experience in economic evaluation and project management to deliver measurable results.

## EDUCATION

- B.Sc. Computer Science (400 Level) — National Open University of Nigeria (NOUN)
- Student ID: NOU222149055
- Expected graduation: 2026 (Final semester expected to conclude by Q1 2026)
- ALX Software Engineering Program — Completed Nov 2024 (ALX Africa)
- University of Washington Global Health Certificates:
- Leadership and Management in Health (March 2025)
- Economic Evaluation in Global Health (Sept 2024)
- Project Management in Global Health (Sept 2024)
- Monitoring and Evaluation in Global Health (March 2024)

## TECHNICAL EXPERTISE

- Software Development: Back-End Programming, API Design, Version Control, Agile Methodology
- AI & Data: Artificial Intelligence Tools, Data Analysis, Logic Models, M&E; Tools
- Global Health Systems: DALY Calculations, Budget Impact Analysis, Evaluation Planning
- Blockchain Technology: Cryptocurrency Trading, Digital Asset Management
- Project Management: Work Plans, Budgeting, Stakeholder Engagement

## ADDITIONAL INFORMATION

- Nationality: Nigerian (Jaba Tribe)
- Date of Birth: 24 April 1987
- Interests: Athletics, Technology Innovation, Community Development
- Availability: Immediate start or standard notice period

## **TECHNICAL SKILLSET**

### **Programming & Development**

- Back-End Development: API architecture and implementation
- Database Design: Schema development and optimization
- Version Control Systems: Git, GitHub
- System Integration: RESTful services, microservices
- Software Architecture: Modular design, scalable systems

### **Artificial Intelligence & Data**

- AI Tools & Applications: Prompt engineering, model utilization
- Data Analysis: Statistical methods, pattern recognition
- Data Visualization: Dashboard creation, interactive reports
- Business Intelligence: KPI development, performance tracking
- Automation: Process optimization through AI tools

### **Project Management**

- Methodologies: Agile, Waterfall, Hybrid approaches
- Documentation: Technical specifications, project charters
- Resource Planning: Budget management, timeline development
- Stakeholder Management: Communication strategy, expectation setting
- Risk Assessment: Identification, mitigation planning

## **PROFESSIONAL DEVELOPMENT (GLOBAL HEALTH)**

- Economic evaluation methodologies for health interventions
- DALY calculations and health metrics for program assessment
- Budget impact analysis for resource allocation decisions
- Public health program evaluation frameworks
- Health systems strengthening approaches and implementation science
- Evidence-based practice in global health

## **PROFESSIONAL INTERESTS**

- AI-powered software solutions for development challenges
- Health data management systems in low-resource settings
- Digital health interventions and mHealth solutions
- Blockchain applications in healthcare and development
- Predictive analytics for outbreak response and disease surveillance

## **ADDITIONAL INFORMATION**

- Nationality: Nigerian (Jaba Tribe)
- Date of Birth: 24 April 1987
- Interests: Athletics, Technology Innovation, Community Development
- Availability: Available for immediate start or with standard notice period
